Panasonic

Productivity+ is a comprehensive solution that fully supports all aspects of the Android™ enterprise-grade mobile OS platform and seamlessly integrates enterprise systems with your TOUGHBOOK® Android-based devices. As a trusted partner, we work with you to provide the services and support you need to keep your workforce productive as you implement Android mobile solutions.

PROSERVICES

Panasonic offers the ProServices and support you need for Android enterprise platform planning and deployment. From consulting, app development, device management, warranty and replacement services, Panasonic keeps your mobile workforce productive and your solution costs low.

HARDWARE

TOUGHBOOK is the global leader in rugged mobile devices with a diverse offering of Android handhelds and tablets. Our Panasonic device portfolio is purpose built to change the way you work by providing access to the data and apps business you need to increase productivity.

SOFTWARE

Panasonic provides a software platform to manage the entire life cycle of TOUGHBOOK Android projects. This includes development and integration of user applications, rapid device deployment through an enrollment and configuration suite, and enterprise-level sustainment solutions.

PARTNERS

Panasonic's Android ecosystem is a high-value network of partnerships comprising independent software vendors (ISVs), resellers and third-party accessories that provide a technology stack designed to meet our customers' complex needs.
